The number zero of the Dicha Grande magazine, from the municipality of Imías, is now available in digital format, [you can download it here](#).

The publication that is the result of the efforts of the Municipal Assembly of People's Power and its Administrative Council to achieve institutional communication, more effective and diverse, aims to regularize itself as another alternative means to reflect the work of the province.

This first edition was intended to bring us closer to, who we are, where we come from and where we are going, as a starting point so that any reader, even outside our context, can form a general image of Imías.
